Ms. Tiberio gave an update on the Eviction Moratorium, noting they are in a position of having spikes of evictions in the winter. She explained there will be situations where people will not have sufficient funds and DSS is not able to assist until the moratorium ends and the evictions become imminent. She noted there are still limitations on that as well. She is proposing to bring forward to the next committee cycle, a resolution to set aside \$500,000 to support keeping people in their homes, or their apartments, if none of the other options are available to them. She noted if these people are evicted, it will create an even bigger financial crisis for the County. She said the populations most likely to be evicted are those who may already receive a stipend. Ms. Tiberio said they are also seeing a reduction of hotels and motels who are willing to work with them. A lengthy discussion took place regarding the full situation of the eviction of tenants. There was discussion on whether the funds could be eligible under the ARPA funds.
